Barriers to Capturing Knowledge

- Typing takes too long
- No bandwidth
- SME's aren't expert documenters
- We suffer from disorganized thinking (the Curse of Knowledge)

Documenting Takes Too Much Mental Energy

AI Removes the Cognitive Load

Demo Time

“I LOVE the AI tools for getting knowledge out of my head.

It's so easy to just talk through the process and have the ScreenSteps AI create the guide.

What would have probably taken me **a month** to do, I was able to get done **in about a day's worth of work.**”
